

# Latitude Software // Vendor Integrations

Connect to Best-in-Class Providers or a Seamless Collections Ecosystem

## Why Latitude Software

Our users love Latitude because it gives collections organizations real control: fully configurable workflows, open data access, and zero vendor lock-in. Customers can integrate any dialer, payment provider, data source, or AI partner they choose—without waiting on a roadmap or paying tolls to change how they operate. It's stoic in the best way: reliable, flexible, and built to run mission-critical operations for years without getting in the way.

## About TEC Services Group

TEC Services Group provides professional advisory, analytical, and managed services to the credit and collections industry that accelerates revenue recovery for clients across third-party, healthcare, debt buyers, government, and financial services institutions. We use our unparalleled knowledge of accounts receivable management (ARM) and collections software platforms to give our clients a competitive edge.

## SERVICE PROVIDERS //

- Provana
- RDN

## Unified Ecosystem for Collections and Recovery

Latitude Software integrates with a full network of third-party vendors that deliver critical services for modern collections operations—data enrichment, payment processing, letter generation, and contact management. These pre-built integrations remove development barriers, accelerate deployment, and maintain a single, cohesive workflow.
